CAREER OBJECTIVE

Final-year Computer Science Engineering student seeking to apply core programming concepts, strengthen problem-solving skills, and gain practical experience through hands-on development while continuously learning and improving technical abilities.

EDUCATION

Bachelor of Technology (B.Tech) , Computer Science Engineering, UKF College Of Engineering

Expected Graduation: **2026**

CGPA: **6.83**

SKILLS

Programming Languages

- **Python** – basic scripting, conditional logic, loops, functions, file handling
- **C** – variables, loops, arrays, basic problem solving

PROJECTS

Brain Tumor Detection Using MRI Images (Academic Project)

- Implemented Python programs to preprocess MRI image data.
- Wrote code for data loading, resizing, normalization, and validation.
- Integrated basic machine learning classification logic using Python.
- Debugged preprocessing and execution errors during model runs.
- Understood how code modules interact in a complete project workflow.

AWARDS

Star Hacks 2025, Best Student Hack Award

SOFT SKILLS

- Logical thinking and problem analysis
- Ability to learn new programming concepts quickly
- Team collaboration during academic projects
- Clear communication of technical ideas

LANGUAGES

- Malayalam (Native)
- English (Conversational)
- Hindi (Conversational)
- Tamil (Basic)
